Genre: Ambient, Ritual Music, Electronic Music, Drones, Dark Ambient, Tribal, Floating

Press release (english):

Monks was composed by B. Ashra in collaboration with Travis McMurphy for a performance of the Kung Fu Academy Berlin.

Monks Part 1 will enchant with its ethereal electronic sounds that are interwoven with overtone singing, gongs, rainstick, Tibetan horns and acoustic guitar sounds.
One feels progressively relaxed is automatically reminded of an East Asian scenery. Only after 26 minutes into the piece a pleasant groove is slowly manifesting.

Ritual Music | Ambient | World | Meditation | Floating Music

The second track - **Monks Part 2** - is a very deep meditative drone / dark ambient atmosphere with sound collages of nature sounds and Buddhist bells. You're facing a fresh breeze and feel like being transported to places in the icy Himalayas.

Dark Ambient | Drones | Deep Meditative Drone

Artist Info:

B. Ashra has been producing electronic and experimental ambient music since 1993. He is living and working in Berlin and owner of mastering studio, GL Audio.

He is a member of the band projects *Brain Entertainment Laboratory*, *Morphon* and *Psychotikum*. Under the monicker *Robert Templa* he is living out his penchant for techno music.

Apart from his creative work as a musician, composer and sound designer, he's also working as a mastering engineer and serves as label manager of *Klangwirkstoff Records* and their two subdivisions.
